TO WHOM IT MAY CONCERN

IN-SITU CONSTRUCTION & MAINTENANCE

I wish to provide this testimony as to the capabilities of In-Situ Construction & Maintenance, an organisation that the Shire of Carnarvon utilised in the construction of the sheet pile wall located along the Fascine foreshore.

The \$5 million contract with In-Situ was to see the construction of a sheet pile wall to the existing sea wall located along the Fascine water frontage. Incorporated into this project were also major works including a limestone hob wall, earthworks and drainage, and the construction of new footpaths/walkways.

The project provided challenges that were met and completed by In-Situ on time and within budget, and were undertaken with the utmost professionalism during the 6 month construction period.

I am also aware of projects undertaken by In-Situ Maintenance & Construction for other organisations, including an \$8m recreation centre and a major fishing boat-pen development in the Port Denison Marina, and the construction of floating pontoons for the Beijing Olympics as well as major construction and maintenance projects for the mining industry.

I am more than happy to recommend In-Situ Construction & Maintenance to any organisation as the Shire's experience with them has resulted in exceptional service.

Please do not hesitate to contact me on 99410050 should you wish to discuss further.

Yours faithfully

Ian D'Arcy
CHIEF EXECUTIVE OFFICER
