Attention: Managing Director

IN-SITU CONSTRUCTION & MAINTENANCE

As you are aware, for the past 10 months I have managed the Argyle Diamond Mine Underground Crusher 2 Construction Project.

In-Situ were contracted to provide the concrete services for this project through DIAB Engineering and the purpose of this letter is to commend the In-Situ team for their consistently professional and dedicated commitment given to this contract.

I have observed all the teams on this project and the team work, rapport and camaraderie within In-Situ has been outstanding. I have been extremely impressed with the professionalism, enthusiasm and willingness to 'go the extra mile' by all of the In-Situ staff and the respect accorded to Managers and co-workers alike has been remarkable.

I would sincerely like to thank everyone in the In-Situ team for their efforts which have been instrumental in the success of this project. I would have no hesitation in employing them in the future if the opportunity arose and wish them all the best for the future.

Yours sincerely

Richard Bancilhon
Project Manager
Crusher 2 Project - Argyle Diamond Mine
