TO WHOM IT MAY CONCERN

Alexander Planning Consultants have worked with In-Situ Constructions and Maintenance during 2008 on the Shire of Irwin Recreation Centre.

The Project Consists of 3,400m² of new build and 1,200m² of refurbishment to existing building, with a construction cost of \$8,000,000.

The construction program was 52 weeks and In-Situ completed the project on program and on budget.

In our dealings with In-Situ we have found them to be a competent, diligent and progressive contractor. Their site supervision was thorough and they responded to matters raised by us quickly and attentively.

In-Situ Constructions are a conscientious contractor and we have no hesitation to refer them for any projects.

Should you have any queries please contact the undersigned.
